DO YOU KNOW...?
Investing in quality is the best solution

Dear Max,

We proudly present our new corporate material. With our new video you can discover who we are, what we do, and how a ball valve is made.

Take a behind-the-scenes look at our company and see what it takes to turn precision engineering into quality products. Most importantly, it all starts with a strong team.

What makes KLINGER Fluid Control unique?

Earlier this year, we set out to create a new corporate video that offers a closer look at our company, our manufacturing processes, and our everyday operations. Our aim was to provide a transparent and authentic insight into what stands behind the KLINGER Fluid Control brand.

The video offers an opportunity to take a look behind the scenes and discover our company, our strong team, and the products and solutions we provide.

Explore our new image brochure - an updated version is available!

Our brochure 2026 has been updated with even more customer references and highlights our dedicated team in 2026. It showcases our commitment to quality, reliability, and customer-focused solutions while providing a closer look at our manufacturing capabilities and industry experience. Find out how KLINGER Fluid Control combines engineering excellence with a passion for delivering reliable performance worldwide.
